JOHN KELLY has purchased the farm of L. Harmon on the St. Albert road, about six miles from town. The farm is one of the very best in the Edmonton district and has been in occupation for a long time. It contains 334 acres, of which 100 acres is under cultivation. There is a good house and outbuildings on the place. The price paid was \$2,800.

Mrs. R. G. Hardisty, of Merchiston ranch, had what might have been a serious accident while returning home from Edmonton last week. When near the ranch the span of horses she was driving took fright and ran away. The buggy pole came down and the point stuck in the ground. Luckily the pole broke and also the traces. So that the buggy did not capsize, but the sudden stop threw Mrs. Hardisty violently out a considerable distance. Her servant was also thrown out violently, while Mrs. Hardisty's young child only fell to the ground without the slightest injury. Fortunately neither Mrs. Hardisty nor the servant were seriously injured.

THOS. DEWAN, of Battleford is building six flat boats at Fraser & Co's mill with which to take supplies down the river to Battleford as soon as the ice goes out. He will start this week.

MRS. J. M. ELLIS, phrenologist and physiognomist, left for the south on Friday's train. The BULLETIN is of opinion that this gifted lady will travel far before she strikes another town quite as mellow as Edmonton has proved to be.

LIEUTENANT CORLETT, of the Salvation army corps at Edmonton has been transferred to Vancouver, and left for that place on Friday's train. A very large part of the success of the army in Edmonton is due to the energy, devotion and talents of Miss Corlett. She will make her mark wherever she goes.

F. W. BATTICK, Methodist student missionary, while returning from his appointment at Beaver hills met with an accident whilst crossing the river at the Fort. His horse stumbled and broke through the ice, causing him to take a somersault over the back of the horse into the water. He managed to get out without any serious injury to either man or beast.

THE funeral of the little son of J. G. Fairbanks, of Larue & Picard's store, and president of the Edmonton board, took place on Friday afternoon at St. Joachim's cemetery. Rev. Father Fonquet conducting the funeral services. Mr. Fairbanks has the sympathy of the community in this terribly sudden death of his only son, who was a particularly bright and promising child. On Tuesday morning he took part in the welcome tendered his Lordship Bishop Grandin by St. Joachim's school and on Friday morning he was buried. Croup was the cause of death.

A NEW settler named Chas. Arthurs, from the Palouse country, Washington, arrived on Thursday's train. Before starting he had arranged to trade some property there with a recent arrival at Lacombe for some horses owned by the latter and brought from the States to Canada as settlers' effects, this man intending to leave the country. The deal was completed and Arthurs brought the horses to Edmonton, where they were seized on arrival by the police for violation of the customs laws; as a settler who is allowed to bring effects free is not allowed to sell them for a certain time after his arrival.

THE BULLETIN has got quite a move on since last issue. In order to make room for the palatial new brick office, the erection of which is to commence at once, the present office had to be removed. During the process of removal of the building the business and job offices were established in the building formerly occupied by the Cartage Co., the back kitchen of adjacent dwelling was used as a composing room, and the steam press was left in the building, and was moved with it separately from the engine. The difficulty of getting out a paper under such circumstances can be easily understood. But the BULLETIN gets there just the same.

THE new land office was finished in September of last year. It lay idle all winter for lack of furnaces. The furnaces were placed in order some weeks ago and still the building is unoccupied. Now the wait is for furniture. Already the building has stood idle nearly as long as it took to build it. As an evidence of government slowness it is making a record. Every day benighted home seekers who have been attracted by the sign cut in stone over the door, turn away after wondering for hours when the office is going to open or the agent to make his appearance—never suspecting that the large packing case on the other side of the street and a few hundred yards to the east is the real office.

E. P. NEWALL late of Rockford Spokane Co., Washington, and now of Whitford lake, south of Victoria, was in town on Saturday for freight and supplies. Whitford lake is in the new Beaver lake land agency and is surrounded by a splendid tract of country, particularly towards the east, in which direction it extends to the Vermilion valley, one of the very choicest districts in the Northwest. Plowing was commencing when Mr. Newall left home and a number of new settlers were looking up locations. Last summer the district was visited by a large number of prospectors but owing to the land not being then subdivided they did not locate. Now the surveys are completed and there is no doubt that there will be a large increase in the number of settlers during the coming summer. From reports received from Spokane it is likely that many people who two years ago thought wheat raising in the Palouse country was the finest agricultural chance in America, are now anxious to try the grass and arable lands of Alberta. The past year, between the silver panic and the almost total ruin of the wheat crop, has been a scorcher on thousands, and with the revival of business many will take the opportunity to come out to Alberta and make a fresh start.

Last Thursday afternoon Mrs. Ellis the talented lecturer on physiology, physiognomy, heredity and hygiene gave a short address to between forty and fifty ladies in the Baptist church. Mrs. Ellis has the happy faculty of interesting the few as well as the many, as was evidenced by the earnest attention given to her highly instructive remarks upon the various branches of the W.C.T.U. work. At the close of the lecture a vote of thanks was tendered her to which she responded in her usual pleasing manner. Then the members of the W.C.T.U. gave a "Five o'clock tea" to the ladies present, and regretted exceedingly that a greater number of ladies could not have been notified in time to participate in what proved to be a most enjoyable afternoon.—Communicated.

R. F. SHAW, formerly of Edmonton and now Dominion immigration agent in the state of Washington, arrived on Thursday's train from Seattle with a party of four delegates, who have come to look up locations in this country. They are John Ball, A. Burns, John Sullivan, and Willey. The three former are originally from Prince Edward Island and the latter from England. All have resided in the States for a number of years. Since their arrival they have visited Clover Bar, Ft. Saskatchewan and Sturgeon river settlements, and are more than delighted with the country. They propose visiting the Vermilion Valley east of Victoria with a view of selecting locations before returning to Washington. Mr. Shaw leaves to-morrow or on Friday to meet another and much larger party who will come on inside a few weeks. He has already issued 192 certificates entitling the holders to special rates over the railway to visit this district. Mr. Shaw visited Palouse, Spokane, Washington, and Walla Walla, Oregon, and considers that there is every chance of a good immigration from those districts during the present season. J. G. Fitzgerald, of Calgary, is at work in Seattle, and a Mr. Munson, is at work in Palouse. Times are very hard in the States, particularly in the cities, and thousands of men are out of employment. It is very hard to sell property. The Seattle contingent of Coxey's army of the unemployed paraded in Seattle shortly before he left. They were being supported by free contributions. There are large numbers of Canadians in the Sound cities, chiefly from the Maritime provinces, who were originally raised on farms, but who have been working at trades, in which they cannot now find employment, and they wish to secure farms again.

## GENERAL NEWS.

In the Red River at Winnipeg made a small move on April 14th.

The Brazilian inscription, of which Admiral De Mello was chief, has been played.

James A. Calder, of Moose Jaw, has been appointed a sub-inspector for the Northwest for 1905.

Seeding was in progress at Grand Forks in Dakota Red River valley, on April 16th but was not general.

Twenty cars of settlers and effects were to leave Nebraska for Olds on the C. & E. railway about the 29th inst.

A. McDonald, of Fish Creek, south of Calgary, was recently choked to death by a piece of evaporated apple.

Eighty per cent. of the range cattle between Edmonton and Sheridan in South Dakota were destroyed by recent storms.

Edison McCarthy and Col. O'Brien, M.P.s, denounce the protective policy more roundly if possible than even Jos. Martin, M.P.

Peter Mitchell, at one time a leading politician of New Brunswick, but more lately of the Montreal Herald, is dying of kidney disease.

Davis, M.P., proposes to amend the Northwest act so that the judge who tries a case that is afterwards appealed shall not sit on the appeal.

Schools on the Manitoba and North Western railway and Grenfell on the C.P.R. have been brought under the operations of the incorporated towns ordinance.

A column train of five cars of effects and a tourist car arrived in Calgary on the 17th from Waterbury, Ont., bound for Olds. The party numbered six families.

The town of Macleod has been granted a number of town lots by the Dominion government which owns the town site for the erection upon them of a town lockup and engine house.

The New Western asserts that the members of parliament from Manitoba, the Northwest and British Columbia, excepting Senator Edington, systematically travel to and from Ottawa on a pass and draw millions from the treasury just the same. The mileage in one case is over \$250.

Winnipeg Commercial: Weather has been colder, with rain and snow during the past week, and seeding has hardly been started yet. From two or three points in the west reports come that some seeding was begun, but this was decidedly exceptional, and in most sections nothing has been done yet.

Dunn's Weekly Review says of Canada: "In view of the extraordinary disturbance of business in this country during the past year, it is remarkable and highly creditable that the business of the Dominion, separated from this country only by an imaginary line across the water, has been so little affected." This paper was formerly practically under Francis Wiman's control.

Newfoundland has a minority ministry at present. The Whiteway government resigned and a ministry was formed by A. F. Goodridge. The governor desired to procure the house, but the usher had to wait at the door of parliament with his message until a vote of want of confidence in the new government was carried. The house was then prorogued leaving the minority in office.

The Morden, Man., Monitor, hitherto an unswerving supporter of the Conservative party, says: "Taken altogether the loud proposals are extremely disappointing. We feel the government have, by their stand on the implements, lumber and coal oil forfeited whatever chance they possess for re-election in this western country, and the sooner the people be given an opportunity to show it the better."

In his speech upon the tariff while arguing for protective duties Sir Hibbert Tupper, minister of marine and fisheries, said: "Driven from the civilized markets of the world, steadily and every year finding their output to those markets decreasing, they spend millions on their army to force their wares, and their goods, and their merchandise into the uncivilized markets of the world which they are endeavoring to occupy, to settle and to control." This statement does not bristle with loyalty to Great Britain, but it proves that Sir Hibbert is a worthy son and successor of Sir Charles.

Peter Pines: Two prominent German ministers from North Dakota, who have been inspecting the Alberta district from Calgary to Edmonton, returned yesterday afternoon to the city. They were delighted with the country, and state they never saw the equal for mixed farming. The gentlemen are Rev. E. F. Movius, of Fargo, presiding elder in North Dakota for the Evangelical association, and Rev. Julius Finley, of Grand Forks, city pastor of the Evangelical association's church. They visited Canada at the earnest solicitations of numerous farmers in all parts of Minnesota and Dakota, and they expect that when they return and make their report, a large immigration north is sure to follow.

The Montreal Gazette announces that C. G. Gaulty, who has been working as an immigration agent in Newfoundland will leave for Western Canada shortly with 600 men and women, who will seek employment as laborers and domestic servants. No doubt the acquisition of 600 hardy Newfoundlanders to the west would be a benefit provided they could find suitable opportunities for the activities which they undoubtedly possess. On the other hand if no such opportunities exist their coming can only result in disappointment to them and consequent loss of standing by the country as a field for immigration. No doubt a large number of domestic servants can find employment, but the same cannot be said of the laborers. Unless these people come with means to enable them to become producers, and skill and ambition besides, they had far better for this country and for themselves stay at home.

Calgary Herald: "Some very interesting details relating to the Calgary & Edmonton railroad are found in the report of the department of railways and canals, just published. The report closed on June 30 last, and as a good proportion of the work done by the road during the fall was considerably above the average, it is safe to say that the figures do not represent the present earnings of the road. The road itself is 295.07 miles in length and during the twelve months preceding June 30 earned \$35,734.21 by its passenger traffic and \$50,225.20 by its freight business. Mails and express brought \$2,711.30. This covers all the sources of revenue and makes a total gross earning of \$87,000.71. The proportion of earnings to working expenses is put at 175 per cent.,

which, it is noteworthy, is only excelled by four railroads in the Dominion, while at the same time its working expenses are nearly \$14.3 per train mile, which places the road amongst the most expensive in the country to run. The expenditure on the road during the year was: maintenance of line, buildings, etc., \$29,657.10; working and repairs of rolling stock, \$23,435.14; and general operating expenses, \$12,309.20, or a total of \$14,908.23. The total accidents during the year were two killed and three injured in various ways.

When the Edmonton brass band met for regular practice on Thursday evening last in the C.M.B.A. building a special meeting was organized with Mr. G. Corriveau in the chair, at which it was moved and resolved: "That we the members of the Edmonton brass band have heard with great regret of the decease of the only son of our president, M. J. G. Fairbanks, and that we share deeply in his sorrow; That M. S. Larue be the representative of the band at the funeral; That a copy of this resolution of condolence be sent to M. Fairbanks and be published in the Edmonton Bulletin; and that this practice be adjourned as a mark of sympathy with the president in his grief."

**ADDRESS OF WELCOME.**  
The following address was presented to His Lordship Bishop Grandin on Monday evening, April 16th, by M. George Roy, registrar, on behalf of the French speaking residents of Edmonton:

A. S. Grandeur,  
Monsieur Vital Grandin,  
Evêque de St. Albert.

Monsieur,—  
C'est pour nous, Catholiques d'Edmonton, un devoir en même temps qu'un véritable plaisir de vous souhaiter la bienvenue après une si longue absence. Vous vous êtes éloigné de nous pendant plus d'une année vous dont la présence était pour nous une véritable consolation. Vous partiez avec une saine conscience et notre inquiétude était bien grande avant que nous ayons appris l'heureuse nouvelle de votre guérison. Il n'en est pas un parmi nous, Monsieur, qui n'ait offert à Dieu un élan de reconnaissance pour votre conservation et notre amour et notre vénération.

Vous avez aussi bien des titres à ces deux sentiments qui animent et animeront toujours les cœurs de vos ouailles. Le travail immense que vous avez fait dans ce pays, les sacrifices que vous vous êtes imposés pour nous, tous ces bons conseils de père dont vous avez été si prodigue à notre égard, et surtout, l'affection que vous nous avez montrée en toutes circonstances, nous trouveraient bien ingrats si nous ne venions pas aujourd'hui vous présenter nos hommages et vous dire combien nous sommes heureux de votre retour.

Vous arrivez, Monsieur, à l'heure de la lutte, à l'heure où les catholiques du Nord-Ouest ont besoin de vos conseils et de votre influence pour les aider à sauver des droits sacrés, que l'on veut en dépit de toute loi et de toute Justice leur enlever.

Dans ce travail que vous aurez à faire pour sauvegarder nos écoles catholiques et notre langue française, soyez assuré, Monsieur, que nous serons fidèles jusqu'au bout, et qu'en toutes circonstances vous pourrez compter sur nous.

Vous avez compris, Monsieur, que notre sauvegarde en ce moment est d'attirer vers ce pays une population catholique, aussi vous avez, si tôt que votre sainte voix l'a permis, commencé un travail qui, nous en sommes certains, ne sera pas perdu, et bientôt nous verrons arriver une foule de nos frères qui nous aideront à conserver notre influence et à lutter sous vos ordres.

Que le ciel vous accorde de longues années, Monsieur, afin que nous puissions voir le succès de nos luttes, et le couronnement de vos œuvres, lorsque nos libertés religieuses et nationales seront assurées d'une manière définitive. Vivez longtemps afin que votre bénédiction se repande sur nos enfants, que nous avons benis si souvent et qui demandent aujourd'hui à Votre Grandeur, une bénédiction toute spéciale.
